CURA

Certification program

Learn, govern and build with Agentic AI

Live, facilitator-led workshops for nonprofit and international development teams.

Why this program exists

Demystify Agentic AI

Govern it Responsibly

Build your Own Agent

Who it's for

UN Agencies

NGOs & Nonprofits

Program Teams

MEL, Ops & Comms

Non-Technical & Executive Teams

CURA

Foundation Workshop

2 sessions

Understanding and governing Agentic AI

A practical, non-technical introduction for nonprofit and international development teams.

Session 01

Understanding Agentic AI

AI vs. Generative AI vs. Agentic AI
The key distinction.

How agents work
The **Perceive → Reason → Act loop** and the autonomy spectrum.

Opportunities & risks
A walkthrough with real-world examples.

Session 02

Governing Agentic AI responsibly

Principles of AI governance
Accountability, transparency, human oversight, fairness, safety.

Managing agents day to day
Guardrails, monitoring and incident response.

Hands-on activities

Map agent autonomy
Visualize real use cases and levels of autonomy.

Governance walkthrough
Explore guardrails and oversight in practice.

CURA

Advanced Workshop

3 sessions + 1 bonus session

Build your first AI agent inside CURA

Go hands-on: build, test, and govern your own AI agent inside CURA.

Session 01

Understanding Agentic AI

OPTIONAL

AI vs. Generative AI vs. Agentic AI
How agents work and the autonomy spectrum.

Responsible governance
Accountability, transparency, safety and monitoring.

Session 02

The benefits of Agentic AI through CURA

The CURA Canvas
Agents, workflows, schedules and guardrails in one place.

A governed agent in practice
Role, tools and model, system prompts, guardrails up close.

Session 03

Building an agent from scratch

Set up your own agent
Configure it step by step, with your own system prompt.

Test, break and refine
Troubleshoot while keeping the guardrails in place.

Bonus session 04

1:1 discovery session

Scope and build an agent for your organization
Tailored to your organization's own use case.

Hands-on activities

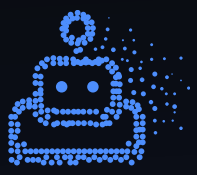

Guided feature tour
Explore the CURA canvas and key features.

Build, test and refine
Configure, test and improve your own agent.

CURA

CURA is proudly a part of the **Microsoft Pledge for UN80**

Key takeaways from the workshops

01

Define Agentic AI with confidence

Explain what Agentic AI is, how it differs from Generative AI, and where it fits in your organization.

02

Apply a governance framework

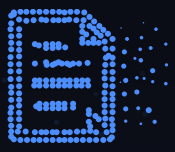

Use a practical framework for accountable, transparent and safe AI, with humans in control.

03

Configure, test and troubleshoot

Set up and refine a live agent in CURA, from tools and model settings to its system prompt.

04

Leave with a working agent

An agent built by your team and connected to your organization's tools and documents.

Live, facilitator-led | Governance-first | Groups of 1–25
